Sir:

RESPONSE UNDER 37 C.F.R. 1.115

In response to the Office Action mailed
November 19, 1996, Applicants are submitting herewith
an updated Terminal Disclaimer, as requested.

Claims 1-27 have been rejected under the
judicially created doctrine of obviousness-type double
patenting over the claims of commonly assigned U.S.
Patent 5,372,907 (Haley et al). In addition, Claims 1-
27 have been similarly rejected over the claims of
Haley et al taken with EP 483,693 (Kurata et al).

Each of these rejections is believed to be
overcome with the submission of the enclosed Terminal
Disclaimer for the present application. This case is
now believed to be in condition for allowance. Early
action to that end is earnestly solicited.

Respectfully submitted,

J. Lanny Tucker
